

## **SOLAR FIRE INTERPRETATIONS REPORT**

### **Standard Natal Interpretations**

These interpretations have been written for use with the Solar Fire astrology software program. They have been written to apply to a geocentric tropical natal chart using a quadrant based house system. They can be used as an educational tool for astrologers, and can be edited for client use.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of the individual whose chart is being interpreted, as people do experience conflicting desires, events and circumstances in their lives. It is the responsibility of the astrologer to synthesise these apparent contradictions in order to present a cohesive and realistic interpretation of the dilemmas of the chart.

Author: (c) Stephanie Johnson is the author of this text. Stephanie is a founder and sole director of Esoteric Technologies. She has helped create, design, develop and author Solar Fire and the other products. In particular she is the author of many of the Solar Writer range of astrology report writers. Stephanie runs her own Seeing With Stars astrology consultation business as well as editing the Australian Data Collection. She holds a Federation of Australian Astrologers' Practitioner's Certificate and Diploma and is a member of the Federation of Australian Astrologers. She is a student of Medieval Astrology and the Ancient Wisdom teachings. She has lectured at national conferences, and her astrology articles have appeared in Australian publications including the FAA Journal and the Astrological Monthly Review. Before commencing her professional astrology career Stephanie was a journalist for 15 years in Australia, England and the USA.

### **CHART POINTS**

#### **THE MOON**

#### **THE MOON IN SAGITTARIUS**

You have an emotional need for adventure and independence, and an instinctual urge for travel and exploring. Under stress you will want to go on an adventure. Your mother may be seen as fun-loving and independent.

## **THE MOON IN THE 2ND HOUSE**

The Moon is placed in the 2nd House of your birth chart suggesting that you seek emotional security through accruing possessions, although this can be frustrating at times because your personal fortunes have a tendency to fluctuate during your life. Consequently, you face periods of economic insecurity when your fortunes suddenly change. Fortunately you have the inner resources to adapt to these changes in income and usually you gain rather than lose money.

## **THE SUN**

### **THE SUN IN AQUARIUS**

Your Sun is in the zodiac sign of Aquarius indicating that you're unconventional, friendly, unpredictable and innovative. Anything new and original will appeal, particularly if it goes against convention. You like to test ideas that have never been thought of before. At best this can be an exciting quest into unexplored territories. It can, however, be an indiscriminate rebellion against tradition. Not that you will mind, for you're a strong believer in people having the freedom of individual expression and not being oppressed by society's expectations. A regular livewire, you've an electric quality about your personality, which makes it difficult for you to sit still for long and also makes you attractive to people from all walks of life. In fact you prefer to mingle with groups of people, often adopting the adage 'the more the merrier'. You may also enjoy working in a group which fights a particular cause.

### **THE SUN IN THE 4TH HOUSE**

Your Sun is in the 4th House of your birth chart meaning that your home and family play a key role in your life, as they are the vehicle for you learning about life. For this reason you expend much time and energy working out your role in the family. Family life, and even family conflict, provides you with opportunities to learn about your own resources. Love them or hate them, you can't seem to escape them unless it is to form a new family of your own. Although you are attached to your original family members, as you mature you also feel a strong urge to leave the nest and put down roots of your own. You benefit from purchases of land, houses, and property, and may also benefit from working in jobs connected with property.

## **THE ASCENDANT**

### **THE ASCENDANT IN LIBRA**

The sign of Libra is considered to be "masculine" by Ancient astrologers suggesting that you're more likely to actively seek your purpose in life, taking the initiative rather than waiting until circumstances are comfortable. Libra is also a Cardinal sign denoting enterprise, enthusiasm, self-assertion and initiative. You're courteous, affectionate, thoughtful, modest and indecisive. Much of your life's purpose is connected with your relationships, both personal and professional. Human relationships are your primary motivation in life. You spend much of your time devoted to thinking about the needs and wishes of other people, ensuring that everyone is treating each other in a fair manner. For this reason your purpose may be connected with justice, mediation or diplomatic work.

### **THE ASCENDANT IN THE 1ST HOUSE**

The ascendant forms the 1st house cusp in most house systems, so this placement has no

particular meaning.

## **THE BLACK MOON**

### **THE BLACK MOON IN GEMINI**

The Black Moon is in the Air Sign of Gemini in your birth chart indicating that you have a real gift for communication, however; you don't always use it to the best of your ability. This is because you try to talk other people around to your way of thinking, rather than listening to their thoughts and opinions. You probably think that it is the other way around, that people in your vicinity fail to listen to you. You just don't realise how often you need to have the last word or how frustrating this can be to those closest to you. You need to learn to listen and respect other people's points of view and incorporate them into your modus operandi. At some stage you may learn the hard way, when someone actually walks away refusing to argue any longer. However, it is also possible that you persist in believing that this is their refusal to compromise, not your own. The Black Moon's gift is the opportunity to bring unconscious or self-defeating behaviour into the light of day where it can no longer run amok. Therefore once you can listen and learn, you are likely to be a powerful negotiator. You can earn the respect of others and perhaps even excel in negotiating business deals, relationship mediation, and conflict resolution.

### **THE BLACK MOON IN THE 8TH HOUSE**

The Black Moon placed in the 8th House of your birth chart can reveal intimate details of your life that you would, perhaps, prefer stayed forgotten. This is because the darker aspects of the Black Moon are associated with sexuality, birth, death, debt, lust, greed and other such intimate matters. It is possible that you attract, albeit inadvertently, the darker elements of society into your life. This can vary from the spouse who gambles irresponsibly to neighbourhood associates turning violent. You don't know why strange things happen to you, but they do. The challenge for you is to face the depths of your own dark side and hold it to the light. You need to delve beyond the norm, to discover the undercurrents at play. Rather than blame others for disrupting your peace of mind, thank them. They present your opportunity to face your own emotional, and psychic, depths.

## **SELENA**

### **SELENA IN LEO**

You are a catalyst in people's lives, helping them in some way find their own creative path. Sometimes your own, and other's attitudes, are a little tainted by ego. It is difficult to let go of your earthly need for gratitude. Nevertheless you have a warm heart and it is your destiny to help others' heavy hearts. Your love of the fun, the arts and children is also part of your life's journey. Women with this placement have a strong mothering instinct.

### **SELENA IN THE 10TH HOUSE**

The placement of Selena in the 10th House is a reminder, if you did not realize it already, that your mother has made a significant contribution your life direction. This is true of most people, but your mother has a more potent effect than some. Your role as a parent is also likely to be a prominent part of your life story. You are destined to apply logic to your career choice, but you need to make sure that logic is not overriding matters of the heart. If you keep purity of purpose, and spiritual goals, in the forefront of your mind then you are likely to make a significantly positive impact on the people who matter most in your life. You may even choose a career that helps other people understand the role of mothers and families.

## **SEDNA**

### **SEDNA IN ARIES**

Sedna has joined the planetary panoply as the slowest moving planet-like object in our Solar System. It takes 10,500 years to work its way around the Sun. Most people currently alive today will have Sedna in either Aries or Taurus. To give you an idea Sedna entered Aries in 1867 and will then enter Gemini in 2024. Therefore any interpretation of Sedna in the signs is likely to be nonsensical.

### **SEDNA IN THE 6TH HOUSE**

This is a tricky placement of the tiny planetoid Sedna because it indicates that sometimes the demands of the everyday world get on top of you. In other words sometimes life's practicalities just seem all too difficult. As a result in your younger years you may feel a little lost when it comes to ordinary things such as, cleaning your room, doing your homework and making it to meals on time. As you mature small, but serious, tasks such as paying bills, putting out the garbage and servicing the car may never get done. The trick to this placement is find the meaning within everyday tasks. For instance the adage "cleanliness is next to Godliness" gives meaning to keeping clean and tidy. Other such adages may help. On a deeper level you could really benefit from meditation, prayer, regular exercise, a healthy diet and other such disciplines. For you rituals are relevant. You may also gain comfort from water pets such as fish or frogs, or small sea creatures. A daily walk by the ocean may be soothing. Once you have found meaning and pleasure in the little tasks then you are well able to handle the bigger ones.

## **ERIS**

### **ERIS IN ARIES**

Eris is the new dwarf planet adding yet another outer planetary entity to our pantheon. Eris takes nearly 560 years to complete one orbit around the Sun. Most people currently alive today will have Eris in either Pisces or Aries. To give you an idea Eris entered Aries in 1923 and will then enter Taurus in 2048. Therefore any interpretation of Eris in the signs is likely to be nonsensical.

### **ERIS IN THE 6TH HOUSE**

The troublemaker Eris is affecting your daily life. This means that on a daily basis you are likely to experience annoyances. These can vary from unwelcome interruptions, to more serious problems with pets and co-workers. You need to avoid irritable workmates, grumpy bosses and unstable animals. You are not necessarily doing anything consciously to upset others. It is simply that you seem to attract problems. You can turn this placement into a positive one by choosing to work in an area that demands skills in fixing problems, soothing troubled animals, saving at risk people or animals or any job that deals with calming strife. In the meantime you need to do everything that you can to stay out of trouble.
